

BARRIER_{Rx}

ANTIVIRAL / ANTIBACTERIAL BARRIER LOTION

THE BODY ARMOR OF FIRST RESPONDERS

UNITED BIOTECH™

Make BARRIER_x a part of your Enforcement/Protective Equipment.

- Protect yourself against germs, bacteria, fungi and viruses.

BARRIER_x creates a 4 hour protection against bodily fluids including:

- Blood, saliva, urine, feces and semen.

BARRIER_x does not replace personal protection equipment (PPE).

- It's a back-up plan you can trust if you are exposed to contamination before you have a chance to put on personal protective equipment.
- The extra layer of body armor and protection against PPE breach.

Add **BARRIER_x** to your Preparedness Plan. Protect yourself, your fellow law enforcement officers and your family and friends from harmful exposure or cross contamination.

BARRIER_x is easy to apply and lasts up to 4 hours

For an 8 hour tour, apply at the beginning of your tour and again in the middle of your tour for complete protection. If working with abrasive materials, reapply every 2-3 hours. Over a period of hours, **BARRIER_x**'s invisible protective coating sloughs off along with the normal shedding of outer layer of dead skin cells.

BARRIER_x – SAFE TO USE

BARRIER_x is manufactured and tested in FDA registered labs. **BARRIER_x** is non-toxic but it should not be ingested. **BARRIER_x** is hypoallergenic and unlikely to lead to eye irritation but basic eye rinsing would be sufficient to clear any irritation. **BARRIER_x** protects, heals and nourishes your skin. **BARRIER_x** does not dry your skin from repeated use like sanitizing gels.

BARRIER_x is not tested on animals.

BARRIERX
ANTIVIRAL / ANTIBACTERIAL BARRIER LOTION

BX-116 - 12-16 oz bottles per case

For more information contact us : 866-753-5700
